Re: Revised 2008 Utah Withholding Tables

In January, the Tax Commission received public feedback about its 2008 Utah Withholding Tables. In response, the Commission reviewed the tables and found some cases of incorrect withholding. In the best interests of Utah wage earners, the Commission has decided to reprint Publication 14, *Utah Withholding Tax Guide*.

The revised tables in Publication 14 will help employers withhold enough from employee paychecks to cover Utah income taxes from wages. Although some employees may see a decrease or a slight increase in their state withholding compared to January, 2008, the revised tables withhold less than 2007 withholding for the same wages and allowances.

You can find the revised Publication 14 online at tax.utah.gov/forms/pubs/pub-14.pdf. It will also be mailed to all active withholding accounts within two weeks.

If you use commercial payroll software, contact the vendor for software updates.
